

Ebony Calloway

Bank Customer Service Representative
Associate Degree in Accounting
Kentucky Career Center

I was just look for a career change. I was ready to go to school. Luckily, when I started with Sullivan, I started with the Kentucky Career Center. I recently just got my associate degree in accounting. Then, I'll be working on my bachelor's. As soon as I got my associate degree I basically started applying for higher positions. About my second interview, I got a job.

I'm getting more benefits. I'll be getting more pay. So I think, you know, I'll be able to do a lot more things – maybe try to pay my car off. We just recently bought a house, so it just opens up a lot more opportunities.

Listen to your counselor because she is very helpful. She was only a phone call away. If I needed her, I could always pick up the phone and call her. They're really there to support you. My Kentucky Career Center counselor was very supportive in everything that I did. I'm glad she was available.

Before going to the career center, it was basically just doing whatever job for the time being. I was in a dead-end position. They were laying off, so I was unemployed for about two or three months – didn't really know what I wanted to do. Then I decided to go to school, and I was looking for a job. And, that's when I started going to the Kentucky Career Center. They was helping me find a job, doing my resumes, searching for jobs. That's when I got a position with where I am now.

Life's about taking chances – just believe in yourself and believe in what you can do. And, I think that way you can be successful.
